## SUMMARY

I am a man of sheer focus and discipline. I am habitual of breaking complex problems into simpler ones and then working my way through them. Up Until my journey as an entrepreneur, I have taken many risks, sometimes I have been rewarded and sometimes the opposite, however it has been a breathtaking experience if nothing else.

## WORK EXPERIENCE

### Inventory Management System

Responsibilities: Frontend Developer.

- Developed responsive UI for the app on-site.
- Developed a solution to stream data from weighing machine into the app.
- Implemented pagination for admin dashbaord.
